Eave/Rake Starter Strip

Pre-cut Eave/Rake Starter Strips Are One Of The Most Overlooked Parts Of A Roofing System!

That's because some roofing contractors try to use a cut-up strip shingle as the "starter" course on your roof. Unfortunately, cut-up shingles may not have properly positioned adhesive to ensure adequate wind resistance. A pre-cut eave/rake starter strip is:

- A cost-effective alternative to using cut-up shingles as your starter course
- Made with a high-quality, properly positioned adhesive that will tightly lock your shingles in place to help prevent shingle blow-off
- Easy to use and install, with no cutting on the roof

Pro-Start® Eave/Rake Starter Strip is a key part of the GAF Lifetime Roofing System, and has even earned the prestigious Good Housekeeping Seal, available in the U.S. only; see gaf.com for details.
